

Certificate of No Objection

BESTÄTIGUNG

A Certificate of No Objection was drawn up on 19.07.2007 following the submission of the vehicles (vehicle numbers: WV1 ZZZ 7HZ7H 007910) with the modification design of your company:

Basic vehicle: Volkswagen T5
Assessed modification: Drive-Rite Air Suspension System

Drive-Rite Air Suspension Systems bears full responsibility for ensuring that all changes made are independently implemented. The Certificate of No Objection only applies to the general compatibility of the named basic vehicle and for changes made to the chassis only for general applicability of the construction of the named chassis, respectively. For further information and, where applicable, additional requirements, please refer to the above-named document, whose entire scope extends to this confirmation.

Drive-Rite Air Suspension Systems is the manufacturer for installations and modifications and bears full responsibility for its installations and modifications. This will be documented against the end customer through two invoices, one for the basic vehicle the other for modifications made.
